# Every Insect

By Dorothy Aldis

Every insect (ant, fly, bee)

Is divided into three:

One head, one chest, one stomach part.

Some have brains.

All have a heart.

Insects have no bones

No noses.

But with feelers they can smell

Dinner half a mile away.

Can your nose do half as well?

Also you'd be in a fix

With all those legs to manage:

Six.

Illustrate the poem.
